He was born in Karamanlı/Burdur as the only child of his family, in 1954.

I practiced watercolor for many years. That watercolor does not accept any fault and requires decisive, serial, meticulous work enriched my brush.

Separating the canvas, I recreated my works abstractly and gradually using thick/thin lines, light/dark transitions, and dull/bright colors. I wanted my eurhythmy to take the audience to different worlds, freed from their stability, to help them make new explorations and make them feel delighted. Painting inventively is my biggest passion. I sincerely hope to find an opportunity to meet more art lovers someday
